

Plan It!

Directions:

For this *Project*, you will analyze the lesson planning process in order to create a lesson plan for a learning style of your choice.

1. In groups of two or three, discuss the lesson planning process.
2. Develop an outline to create a lesson plan over a topic of your choice (sports, literature, music, etc.). Use all available resources including current academic research. Be sure to incorporate the following:
 - What are the learning goals and objectives of the lesson plan
 - What strategies/methods will be used in order to target your learning style
 - How will the lesson be assessed
 - What resources will be needed
3. After answer all questions and creating an outline, your group will put the lesson plan together.
4. Your group will present their lesson plan and discuss the following in detail:
 - How did your group make the goals and objectives clear
 - How did your group decide on strategies and methods to use for the learning style
 - How would your group incorporate other learning styles or use differentiated instruction
 - How would your group use the assessment results
5. Be prepared to answer questions.
