

# Police Misconduct Court Cases

*Directions:*

1. With a partner, research court cases in which police misconduct during the arrest procedure affected the outcome of the criminal trial. Choose a case which interests you and notify your instructor of your choice so no two groups select the same case.
2. Using the Internet, library or any other available resources complete the research on your chosen case.
3. Create a one-page report discussing the following:
  - What crime was committed
  - What was the police misconduct
  - How it affected the case
  - What was the outcome of the case
  - What should the police officer have done differently
4. Print your report and site all sources used.
