

# What Is Fashion?

## *Directions:*

For this project, you will perform brief interviews with a variety of people to gain a perspective on what fashion means to different people.

1. Use the interview forms on the following pages to aid in collecting information from at least eight subjects. You should ask each subject their name, age and occupation. Then ask them to define fashion and describe the importance of fashion in their lives. Do NOT have subjects fill out the forms themselves. Subjects should be of various ages and occupations to increase the variety in responses. It is recommended you record interviews for later reflection.
2. After collecting responses, write a one-page essay describing what you learned from the experience and how you agreed or disagreed with subjects' responses.
