

My Life As...

Activity Overview:

You will imagine you have been hired as a software engineer and detail what your day-to-day life will resemble in your dream job.

1. While watching the career interview with a software engineer, take notes about their work, their education and their day-to-day tasks.
2. Imagine you are working as this STEM professional. Consider the following questions:
 - What would your life be like in this profession
 - What would you need to do to prepare
 - What would your daily tasks look like
 - What would your college degrees be
 - How would you feel working in this career
3. Write a paragraph answering the questions above and turn in to your instructor as directed.
