**iCEV Acquires Applied Educational Systems (AES)**

*Deal adds additional Health Sciences, Business Education, Computer Applications and Career Readiness curriculum to iCEV's extensive course library.*

**Lubbock, TX – October 12, 2022** – iCEV, a leading producer of Career & Technical Education curriculum, instructional materials, and industry certification testing, announced today it acquired Applied Educational Systems.

Based in Lancaster, PA, AES provides SaaS-based digital course curriculums in Health Sciences, Business Education, Computer Applications, and Career Readiness. Today, AES' products are in 2,000 classrooms globally, serving more than 2.1 million students since its inception.

"It is abundantly clear that AES shares our passion for serving the CTE community," said Dusty Moore, CEO of iCEV. "AES has one of the best track records in the industry for customer service and client satisfaction, and we look forward to watching the great results of our combined efforts and overall impact on teachers and students," he added.

Late last year, The Riverside Company announced a strategic investment in iCEV to allow the company to further expand its offerings and capabilities through organic and M&A initiatives. In June, iCEV announced it had acquired DroneCurriculum.net, which includes preparation materials for the FAA Remote Pilot Certification Exam. In August, iCEV acquired Today's Class, a leader in automotive and cosmetology curriculums.

**About iCEV**

Since 1984, iCEV has specialized in providing quality CTE curriculum and educational resources. iCEV is the most comprehensive online resource for CTE educators and students, offering curriculum for several major subject areas, including agricultural science, trade & industrial education, business & marketing, career exploration, family & consumer science, trade & health science, law enforcement and STEM education. Additionally, iCEV acts as a certification testing platform for industry certifications. Recognized companies and organizations utilize iCEV as the testing platform for their certifications.
