

# Trusses

*Directions:*

1. Using all available resources, research and identify how trusses are used to erect a gable roof. Also, include the definition of trusses and explain how they are used and why they are important.
2. After completing your research, create an illustration by hand or a computer generated graphic which shows how trusses are used to erect a gable roof.
3. Additionally, write a one page paper on the information you found and cite all sources used.
