

Career Exploration Journal: Career Plan

Directions:

Throughout the *Exploring Careers: Agriculture, Food & Natural Resources* presentation, you will be creating a journal which will contain all of the *Career Exploration Journal Projects*. The items created in this *Project* will serve as a potential career plan for a career within the Agriculture, Food & Natural Resources Career Cluster.

1. Choose a career within the Agriculture, Food & Natural Resources Career Cluster. You should choose a career which you might be interested in pursuing in the future.
2. For your *Career Plan*, you should include at least the following information:
 - Job title
 - Job description (use a real job description from the Internet or a newspaper)
 - Two short term goals which could be completed to help you succeed in obtaining this career
 - Two long term goals which could be completed to help you succeed in obtaining this career
 - List of two or three high school courses which could help you prepare for this career
 - Explanation of education, certification or credentialing requirements for the career (GED, Associate, Bachelor's, Master's, Certificate, etc.)
 - Examples of experiences which could help you prepare for the career you chose such as student organizations, part-time jobs, hobbies, etc.
3. Once all of the information for the *Career Plan* has been compiled add it to your *Career Exploration Journal*.
