

Data Capture

Directions:

1. After an introduction to both digital and physical forms of data capture, conduct further research. If available, your instructor will have you practice using GPS and GIS systems to locate positions and interpret images.
2. Using your research and practiced skills, create a chart similar to the example below comparing both forms.

Digital	Physical
Quickly uploaded	Must be scanned
May require an Internet connection	Can be used without an Internet connection

3. Include at least four comparisons not demonstrated in the example above.
4. Cite all sources used.
5. Present to the class.
