

Mitosis vs. Meiosis

Directions:

1. Using the Internet, library, presentation or any other available resources, research and draw phases of mitosis and meiosis.
2. Use one piece of paper for each phase and label each part of the cell which is important to the specific phase.
3. Be sure to use color and label each phase.
4. On a separate sheet of paper, compare the processes of mitosis and meiosis.
5. Attach a citation sheet listing all sources used.
