

Ethical Dilemmas

Directions:

1. In a group, write down a real-life business ethical dilemma you have heard about. Include one for each group member. Do not put your name on the paper.
2. Once all the group members have finished writing their cases, put the cases together and hand them to the group to your left.
3. As a group, analyze and discuss the possible solutions for the ethical dilemmas. Make sure you make ethical decisions.
4. What are possible long-term consequences of solving the dilemma unethically?
