

School Age Activity List Presentation

Directions:

1. In groups of two or three, develop an activity list Microsoft® PowerPoint® presentation based on a preschooler's physical development.
2. Your presentation should be at least 20 slides long and include the following information:
 - Presentation title
 - Section for each of the three age groups
 - Physical development for each group
 - At least four graphics per group
 - At least five activities per group
 - A slide containing all your citation information
3. Groups will share their presentations with the class.
